**Non-GMO statement:**

Dear Grace,

All certified organic yeast products produced by AGRANO GmbH & Co KG in Riegel, Germany are cultivated with only certified organic inputs. In accordance with EU Regulations on Genetically Modified Food and Feed (Regulation (EC) No. 834/2007, these yeast products are neither a genetically modified organism themselves (GMO) nor do they contain any.

In order to avoid misunderstanding, AGRANO yeast products are described as "non-GMO" instead of "GMO-free" to account for the theoretical, adventitious presence of GMO inputs, which tolerance is congruent with NOP organic standards.

With kind regards  
**AGRANO GmbH & Co. KG**

Jürgen Lamm  
Quality Manager
